AQUAMAX[®] EXTRA ONEVISIT[™] IMPULSO

MAXIMUM FREEDOM. MAXMEYER[®].

Introducing *OneVisit Impulso*, the latest addition to the *AquaMax Extra* waterborne paint system.

Great performance, easy to use and robust - these are just three of the qualities that make *MaxMeyer* refinishing solutions the trusted choice for thousands of bodyshops around Europe.

OneVisit Impulso joins the *AquaMax Extra* waterborne paint system to give painters extra flexibility when choosing their preferred paint application method. By adding *OneVisit Impulso* to basecoats in the system, the paint becomes suitable for wet-on-wet application whilst still being easy to mix and spray and delivering the colour, quality and finish that bodyshops and customers love.

Best of all, *OneVisit Impulso* is entirely optional and there are no changes to the existing *AquaMax Extra* waterborne paint system.

Wet-on-wet paint application offers another way to achieve the same great results from the *AquaMax Extra* paint system. In addition to giving painters more flexibility in how they choose to work, *OneVisit Impulso* can also help bodyshops to meet changing priorities. The wet-on-wet method requires fewer visits to the paint booth, which means that painters' time can be managed effectively for improved efficiency. *AquaMax Extra OneVisit Impulso* gives long-lasting durability in virtually any climate.

Available products:

- > 1.590.9000 *OneVisit Impulso ST*, 2L
- > 1.590.9100 *OneVisit Impulso HD*, 2L
- > 1.978.0093 Blending Adjuster, 1L

FEATURES AND BENEFITS

Greater flexibility in paint application: choose between standard or wet-on-wet methods

User-friendly formulation: easy to mix, spray and blend

Robust application: even in extreme climatic conditions

High performance: delivers a great colour match

Efficiency potential: meet changing bodyshop demands

Easy integration: works with the *AquaMax Extra* platform and is compatible with PPG LINQ[™] digital tools and the PPG MOONWALK[®] automated mixing system

We make your job easier.
